Price/Buyer:

HELMSMAN AUCTION

This method of buying rams combines the good features of both the auction system and sale by private treaty. You get the opportunity to bid on and buy any ram in the offering and you pay competitive market value without any pressure.

HOW IT WORKS

1. On arrival, the intending purchasers register at the bid table and receive a buyer number.
2. All rams are displayed for inspection as usual, with relevant information provided in the catalogue.
3. When the sale commences, all rams are on the market simultaneously. You may bid on any ram/s, regardless of lot number, by filling in a card and handing it to a "runner".
4. Bids are recorded with the buyers' number on a large board adjacent to the ram display and you can bid on any number of rams at once and can see at a glance whether your bid still stands or has been overbid.
5. A bid once submitted and recorded cannot be retracted, and the person responsible for submitting such a bid will be responsible for it unit it is overbid.
6. The sale will remain open for a minimum of twenty (20) minutes. A bid registered in the last two minutes will result in a two (2) minute time extension.
7. Further bids would trigger the same process until no more bids are received in a specified period, which would signify the end of the sale.
